Hollywood tends to have a romantic vision of the way war works. War is hell. The brave men that signed up for these early teams faced real dangers that many of the modern Special Forces teams face, without much of the equipment that is carried. For many of them it was a death sentence. Find out about the early pioneers in the field from Italy. This was a deadly and dangerous business though. While you may have heard about the Marines being the first boots on the ground, for many battles it was the UDT that blew the obstacles out of the way for them first! War is fought on land, on sea and in the air. Grab a copy of this book today and see how at times, it was fought under the water as well. Comments From...
